David is a lovely and gentle man with great skills. I contacted David when I wanted someone close to me who had the experience to deal with fertility issues specifically.

I'm an older woman (39) and David did only 4 sessions on me –assuring me it would have an impact. Only a couple of months later- I'm pregnant. You can't ask for more than that!' Sarah, Prospect

Thanks so much David. After being in so much pain for a few years- with a bad back from a car accident and with the added stress that life sometimes brings, since

having my massage appointments with you, the pain is 90% better than it's ever been. I'll definitely. E back!!!

I visited David after experiencing 3 years of constant lower leg pain from my commitment with football. After seeing naturopaths, chiropractors, podiatrists and doctors during that time period, I saw Dave's business in the yellow pages. For me, he provided a blend of pressure point, remedial massage, reflexology and stretching techniques to work on the problem areas i had. It was amazing the change, even the next day at work, where my legs would normally ache, they didn't. After seeing him a few times through early 2008, I was able to complete my best preseason, free of the dreaded shin splints and calf problems that would hinder my every training session and match days, every year. I am now able to run longer without pain, take knocks on the legs without long term problems and visit Dave when i feel like i need an update. A no pressure, calm environment. Cheers mate for getting me back up and running again

Interstate visitor, made a random selection from a natural therapies website, and found David. So pleased that I did. David is a wonderful masseur. He has the kind of personality that immediately puts you at your ease. Nothing is too much trouble for him. This combined with his ability to deliver a massage that is at once so, so relaxing and intuitively remedial, will keep me coming back to him whenever::I visit Adelaide. Thoroughly recommended! As a result of practicing as a registered cardiac nurse for 26 years, I developed chronic and debilitating neck and shoulder pain, severely limiting my capacity to care for my patients and practice effectively. In addition, my quality of life became

severely compromised as I used to enjoy exercising and keeping very active. I have sought treatment in various other alternative therapies during the last 4 years with little or no effect in alleviating the chronic pain I was experiencing. A nursing colleague highly recommended to mesa visit to Still Waters Massage as she received excellent results in the treatment for her back pain. I am extremely grateful that I am now pain free from all the stress and strain from working in a busy ward environment however I have continued treatment for maintenance so that I can continue to be pain free and be the best nurse I can for my patients. My quality and outlook on life has greatly improved. I feel calmer and more relaxed. In addition, my quality of sleep has improved also. The maintenance treatment is crucial to enable muscle flexibility to be sustained. From a holistic perspective, Still Waters Massage has greatly enhanced my physical and psychological wellbeing. To all nurses I urge you, please make an appointment at Still Waters. You won't regret it.

Thank you for showing me there is another way to treat back problems. For Just on 2 months now, I have had easily manageable back pain and it's improving. Thanks Again

David was fantastic; he could intuitively find the areas in my back and my knee that were giving me trouble. His treatment was fantastic...not only did he treat the problem, he explained what he was doing and offered great advice on how I can maintain the problem. I'll definitely use his service again

Wow! It's not often that you come across a practitioner that spends that extra time trying to sort out any problems. Thanks David!

It's so great to feel good after a massage from Dave, not like others where you feel like you have been hit by a truck after. highly recommended

David, My experiences with your methods are fantastic. I have really appreciated your flexible working hours. Makes it easier for me to attend to my health in between a hectic lifestyle. When I am in the treatment room I enjoy the calm energy that you have created. It is warm & comfortable, even in the coldest months!!! & the treatments you have provided have really made a difference to my health and enabled me to get on with life in a more healthful (= pain free) way. Thanks David, I will return. Again & again & I have already been telling my friends and colleagues of the wonderful experience & benefits you deliver. Cheers. Cheryl

I must say that I am absolutely energised and satisfied by the results from a treatment from David. My History is a long list of muscular skeletal problems as well as a major knee reconstruction late may 07. I had been suffering extreme pain and complications from the surgery. David treated me for 45 mins and I was amazed at the freedom, flexibility and lack of pain. I strongly recommend David's services and can pass on that you too will be amazed and revitalised after his therapy. I still cannot believe the difference and I will definitely be seeing David on a regular basis. Do yourself a favour and call David no matter the problem. I am confident that relief is close at hand. Many Thanks. David. Rob Wilhelm. State Manager, SC Australia.

Very good and thankyou Dave i will be back nice not to have pain

**May 29, 2007 at 10:37:05 KT**

Excellent, after yrs of pain in shoulder and neck, after 1st visit there was 95% pain relief. I won't be looking elsewhere that's for sure, plus a very comfortable person you can easily relax and not feel on edge
